

DISTINGUISHED ENGINEERING AWARD

Adeptus Architecture, Inc. has received the "Distinguished Engineering Award for 2014" for the Warren Street Village Project at N.J.I.T. The award was presented to Barry Agnew, A.I.A., President of Adeptus Architecture, Inc. on Jan. 30, 2014 by Philip K. Beachem, President of the New Jersey Alliance for Action. The project included six buildings housing an Honors College, dormitories, a restaurant, convenience store, a fitness center, and specialty student housing for fraternities and sororities. The project encompasses over 215,000 s.f. and was completed in late 2013. The project incorporated sustainable design,

S.M.A.R.T. technologies, and cutting edge communications technologies. Dr. Joel Bloom, President of N.J.I.T., is shown accepting the award with Mr. Agnew
