

# HIGHER EDUCATION PROJECT AWARD

Adeptus Architecture, Inc. has received the "Leading Higher Education Project Award" for 2012 for the Warren Street Village Project at NJIT. The award was presented to Barry Agnew, President of Adeptus Architecture, Inc., on February 5, 2013 by the New Jersey Secretary of Education, Rochelle Hendricks. The project was the catalyst project for "The Gateway" revitalization of downtown Newark, New Jersey. The master plan was developed by Jones, Lang, Lasalle of London, England. Adeptus was responsible for designing the six building 215,000 sq.ft. complex which includes a residential honors college, dormitories, a student fitness center, restaurants, and student support amenities. The project is expected to receive LEED Silver certification. Joe Tartaglia, NJIT Associate Vice President for Facilities Management, is shown above accepting the award along with Mr. Agnew on behalf of the University.
